SPECIALIST SERVICES FOR ADULTS WITH BRAIN INJURY (BI), INCLUDING STROKE

REHABILITATION & COUNSELLING SERVICES MENU & PRICING STRUCTURE: FROM 8 NOVEMBER 2016

Headway East Sussex is a registered charity with dedicated facilities and 28 years' experience in the field of ABI offering a range of specialist services for adults with brain injury.

Therapy Services: Working with a specialist team of HCPC registered therapists we offer client-centred therapy programmes for people with ABI who require assessment or ongoing therapy support. The therapists have extensive experience in neurological rehabilitation.

We offer assessment and therapy interventions devised to meet individual needs. This may consist of one or a combination of speech and language therapy, physiotherapy or occupational therapy. Therapy sessions take place at our well-equipped facilities based at our centre in Newick, and individual programmes are planned and costed dependent on client needs. A community service in the client's own home or residential setting is also available, but will incur additional costs. Further information upon request.

Counselling Service: The counselling service is offered to survivors and families/carers at different locations across the County. It is provided by trainee counsellors on placement at Headway East Sussex and managed by the Counselling Manager, a registered qualified counsellor. Clinical supervision is also provided.
